

Institute of Explosives Engineers

VOICE OF THE EXPLOSIVES INDUSTRIES

If you work in the Explosives Industry or have links to it, we would like to invite you to become a **Member** of the **Institute of Explosives Engineers**.

Progress your career, learn about developments and advances in your field and in related disciplines and share a forum with like-minded professional colleagues, all here to support one another.

Our Role in the Industry

Formed in 1974, IExpE is a membership organisation promoting the highest standards in the explosives industry. Our aim is to be the organisation that establishes and oversees National Occupational Standards of the Explosives Industries and to provide a forum that enables and promotes consultation between individuals, professional private organisations, government departments and armed forces experts within the explosives industry.

Is Membership for you or your organisation?

IExpE offers a home for everyone working in explosives industries and actively fosters widespread communication between members, whilst helping them to advance their careers.

Membership categories are available for all levels

- Corporate Member ● Company Member ● Fellow ● Member
- Associate ● Student ● Technical

If you are unsure which category of membership applies to you full information in respect of membership categories and criteria can be found at www.iexpe.org or by contacting the IExpE Administration office direct.

Membership is assessed by the validation of qualifications and experience.
